EXPERIENCE

Visiting Researcher Jan 2019 - Aug 2020
Dartmouth College, advised by Professor Bo Zhu *Hanover, NH, USA*

- Applied deep learning to solve physics problems, including solving PDEs and predicting interaction between objects and particles.
- Applied knowledge of physics to improve deep learning and make neural networks more interpretable.
- Gave tutorials on computer vision, and neural-based physics to visiting students and undergrad students.

Research Intern Jun - Aug 2017
Satsafe *Liverpool, UK*

- Developed a machine learning-based scoring system to determine the insurance cost based on GPS trajectories of drivers.

Research Intern Jul - Nov 2016
Barnett Waddingham *Liverpool, UK*

- Developed a risk model for universities to determine the insurance cost.
